BRADEN FILTRATION

SPEC SHEET · MANUFACTURED IN CLAREMORE, OKLAHOMA

Pocket Filters

Multi-pocket filters with high dust-holding capacity.

Overview

A pocket filter uses several deep media pockets side by side. Air fills the pockets, spreading the load across a large media area, which gives the filter high dust-holding capacity and a long service life between change-outs.

Braden manufactures pocket filters in MERV 11 and MERV 13 for data halls and commercial air handlers. Call or email for the full line card and sizes.

Lines and efficiencies

LINE	RATING SCALE, MERV 8 TO HEPA H13	EFFICIENCY
Pocket filters	8 · 10 · **11** · **13** · 15 · 16 · E12 · H13	**MERV 11, MERV 13**
